

## 2019 Cape Cod Blue Economy Project – Career Intentions and Perceptions Survey

### Appendix A – Survey Questions

Hello!

Did you know that about 70% of the Earth's surface is covered by water? The Cape Cod region alone has 559 miles of coastline and hundreds of fresh and saltwater ponds. So, as you begin to think about the type of job or career you might want to have in the future, it might be helpful to keep in mind that our oceans, rivers, lakes, and streams provide lots of job opportunities, even right here at home. Whether you like working with your hands or your brain — or both — a job or career related to the water might be worth exploring.

Your participation in this survey will help us to understand how aware students are about jobs and careers connected to the water. The survey will take less than ten minutes to complete and your answers will be confidential.
